

1 ABSTRACT OF THE DISCLOSURE  
2

3 A portable wireless device wirelessly communicates a reference  
4 to a print device causing the print device to use the reference to obtain a desired  
5 set of print content and further causing the print device to print the desired print  
6 content. The portable wireless device may also wirelessly communicate the  
7 reference to a print service which may respond to the reference by obtaining  
8 the desired print content, formatting the desired print content for printing, and  
9 communicating the desired print content to the print device for printing.
